

# DOORS CLOSING / WINDOWS OPENING

TEAM KOVACH / GLOBAL UNIVERSITY

— TOGETHER —  
**WE'RE OPENING  
WINDOWS**  
— WHERE —  
**DOORS ARE CLOSING**

In many places around the world, it is difficult to reach people for Jesus. Many times this is due to a hostile environment to the Gospel. Governments impose laws and cultures place restrictions. It would seem as if doors are closing to the Gospel, but in many areas, national pastors and global workers are turning to the technologies that God has given us!

## ABOUT THE KOVACH'S

Fred & Crystal serve as veteran missionaries at Global University of the Assemblies of God as the Chief Engineer of the television studio. They married in December 1990 and received their missionary appointment in 1995.

Fred's call is to use technology to take the Gospel where it cannot be easily sent. Crystal's passion is to help people in need; praying and ministering to them. She has enjoyed several opportunities to speak at women's conferences.

Their oldest son, Phill got married to Katie in September 2020.

Stephen is a Certified Flight Instructor and an Adjunct Professor at our local technical college. He plans to fly for a major airline.

Hope is in the ninth grade.

## OPENING WINDOWS

*The Kovach's have been involved with Global University in several windows of opportunities:*

**INDIA COLLEGE OF MINISTRY** - Open Door Ministries has placed India in its Top 10 Countries where its hardest to follow Jesus. Our partners there report that it is difficult to get permission to purchase land for churches. We have had the opportunity to work with the national church in India to establish the India College of Ministry, where we have trained workers to prepare courses in 10 languages for print, Internet and tablet delivery! So far, over 14,200 students have established home fellowships.

**GLOBALREACH.ORG** - [GlobalREACH.org](http://GlobalREACH.org) presents Global University evangelism and discipleship level courses in 34 languages for download. Our multi-lingual features allow people to download other language materials while browsing in their own language.

We also have secure versions of [GlobalREACH.org](http://GlobalREACH.org) in two Asian minority language groups. These websites reside on private servers to avoid blockage by the authorities.

**NEPALI AUDIOBOOKS** - The rugged terrain of Nepal, combined with legal and religious restrictions have placed difficulties on training pastors for ministry. Audiobooks can provide the training they need! When placed on [GlobalREACH.org](http://GlobalREACH.org), the anonymity of the Internet allows them to study in private without fear of reprisal.

## 2016 TO 2020 TERM HIGHLIGHTS
